JAGANNATH VUNGARALA

Master's in Computer Applications with Gen AI @ SRM University
Chennai | Aspiring for Data Scientist with AI focus | Artificial
Intelligence | AWS | AI Agents | RAG | MCP | Prompt Engineering
Chennai, Tamil Nadu, India

Summary

I'm a Master of Computer Applications in Gen AI student at SRM University, Chennai, with a strong passion for Data Science and Artificial Intelligence. I enjoy working with Big Data and have foundational knowledge of AI concepts and AI agents with knowledge on the MCP protocol and Large Language Models (LLMs) and building systems with Retrieval-Augmented Generation (RAG). With a background in biology from PUC, I'm particularly interested in exploring how genetics and technology can come together to create new possibilities.

My dream is to see India lead the world by launching a groundbreaking tech product that no other country can match. I want to be part of a team that drives innovation and makes India self-reliant in technology. I'm inspired by the brilliant minds in our country and excited to contribute to its technological future.
